Spaces of Expectation is the title of a collaborative research project between Södertörn University Stockholm (Sweden) and Ca' Foscari University of Venice (Italy). Its purpose is doing comparative research on mental mapping, historical imagination, and political uses of historical narratives in the Baltic Sea and Mediterranean Regions. The project is funded by Östersjöstiftelsen (Foundation for Baltic and East European Studies), Stockholm.

Comparative Area and Transregional Studies is the first public international workshop in the framework of 'Spaces of Expectation'. It is co-funded and hosted by Ca' Foscari University (Department of Linguistics and Comparative Cultural Studies, School of International Relations) and Centro Tedesco di Studi Veneziani. Other workshops on mental mapping and conceptual history will follow. The aim of these workshops is creating a dialogue between the project members and distinguished international scholars of history, political science and other disciplines, such as geography, to improve the methodology of the research and develop its self-reflective theoretical dimension.

Comparative Area and Transregional Studies

A Framework for the Baltic
and the Mediterranean
